

MUHAMMED SHAHEEDHUL INSHAD PK

MERN Stack Developer

inshadshaheedhul@gmail.com | +91 9567186543 | [LinkedIn](#) | [GitHub](#)

SUMMARY

MERN Stack Developer with hands-on experience building full-stack web applications using React.js, TypeScript, JavaScript, Node.js, Express.js, and MongoDB. Skilled in developing REST APIs, JWT authentication, role-based access control (RBAC), real-time communication, responsive user interfaces, and scalable backend architectures. Experienced in building and deploying project-based applications including a freelancing marketplace and full-featured eCommerce platform. Strong understanding of clean code, maintainable architecture, API security, state management, and modern web development practices.

TECHNICAL SKILLS

Frontend: React.js, Redux Toolkit, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs, JWT Authentication, RBAC, Socket.IO
Database: MongoDB, PostgreSQL, Redis
Deployment: Docker, Docker Compose
Others: Git, GitHub, Postman, Stripe, Firebase Authentication, Google OAuth, Vercel, Figma

PROJECTS

HireXpert | (Self-Directed Project)

[GitHub](#) | [Live Demo](#)

- Developed a full-stack freelancing marketplace platform enabling freelancers to create and manage service-based gigs while clients can browse, search, and hire freelancers based on their requirements.
- Designed and implemented role-based onboarding workflows for clients and freelancers, including dynamic profile setup, skill selection, and protected dashboard routing.
- Developed an admin dashboard for category and skill management, enabling freelancers to select only admin-approved skills.
- Built responsive freelancer listing and gig detail pages with search and filtering functionality using React.js, Tailwind CSS, and Shadcn UI.
- Implemented a scalable Controller-Service-Repository architecture to improve separation of concerns, maintainability, and backend scalability.
- Secured application APIs using JWT authentication and role-based access control (RBAC) across protected application features.
- Integrated Socket.IO to support real-time communication and instant updates between clients and freelancers.
- Integrated Redis, Stripe, Google OAuth, and Cloudinary to support application functionality and third-party services.
- **Technologies:** React.js, TypeScript, Redux Toolkit, Node.js, Express.js, MongoDB, Redis, Socket.IO, Tailwind CSS, Shadcn UI, Cloudinary, Stripe, Google OAuth, Git

Stinson | E-commerce

[GitHub](#) | [Live Demo](#)

- Built a full-featured eCommerce web application for fashion and lifestyle products.
- Implemented Firebase Authentication with Google Sign-In for secure user authentication and access management.

- Developed core eCommerce functionality including authentication, product listings, shopping cart, and session management.
- Structured the application using MVC architecture to improve maintainability and separation of application responsibilities.
- Developed responsive UI components, image galleries, and product sliders using Bootstrap.
- Configured Express.js middleware, routing, and reusable EJS templates for server-side rendering.
- **Technologies:** Node.js, Express.js, EJS, Firebase Authentication, Bootstrap 3, HTML5, CSS3

MINI PROJECTS

Examix – Role-Based Authentication System

- Built a role-based authentication system using React, TypeScript, Node.js, Express.js, and MongoDB.
- Implemented JWT authentication, role-based access control (RBAC), protected routes, and Redis integration.

User Management System

- Built a role-based User Management System using React and Redux Toolkit.
- Implemented secure authentication, profile handling, and admin controls for managing users.

Todo Application

- Developed a responsive React-based task management application.
- Implemented add, edit, delete, and task completion functionalities using React Hooks and dynamic state management.

EDUCATION

Brototype

Full Stack Web Development

Developing full-stack web applications with a focus on scalable, maintainable, and modern web development practices.
